History of Ballina Shire

The original inhabitants of the Ballina area were the Bundjalung Aboriginal people. The name Ballina is thought to be sourced from Bundjalung word, "bullinah", meaning "place of many oysters". One possibility is that the Aboriginal name reminded the predominantly Irish settlers of "Ballina", so the name's origin could be an accidental or deliberate corruption of the Aboriginal form.

European settlement dates from 1842, with land used mainly for timber-getting and agriculture. From the 1860s, land was used more for sugar cane growing, maize growing and dairy farming. Gradual growth took place during the late 1800s. The area saw significant development occurring from the post-war years, with the population increasing from about 8,000 in 1947 to about 9,000 in 1966. Rapid growth took place during the 1970s and 1980s. The population increased from under 11,000 in 1971 to 19,000 in 1981, and then to 30,000 in 1991. As of 2020 the shire has a population of 45,217.
