Zoning According to NSW Planning

This zone is intended to be applied to land where primarily low density housing is to be established or maintained. Typically, the zone features detached dwelling houses, but it may be appropriate to include 'dual occupancy' (attached or detached) or some 'multi-dwelling housing.' This is the lowest density urban residential zone and the most restrictive in terms of other permitted uses considered suitable. These are generally restricted to facilities or services that meet the day-to-day needs of residents. This zone is generally not suitable adjacent to major transport nodes or larger activity centres where residential densities should be higher.
